THE ASSESSMENT ROLL

El Paso County Shows the Total Increase in Valuation

County assessor M B Irvin and Deputy Mr Frank Cotton yesterday completed the assessment roll Although there has been a great reduction in the valuation of many lines of property the assessed valuation as a whole is increased This is not due to any sweeping raise in a few directions but by careful, close work among all classes a great deal of property that has not hitherto been returned such as clocks and watches, musical instruments silverware and other personal property

The state board of equalization let the railroads down very easily this year decreasing their valuation $108 961 The figures of this reduction are as follows

RAILROAD ASSESSMENTS

	1891	1892	Shrinkage
D & R G	$6e* 93	$5897 7 0	$ 8 9n3
Santa Fe	4 ...60	466 80	54
Union Pacific	458 8 0	4.1 8G	38 81
Midland	4 ...80	3?? ...	11 10
Manitou & P k	26 0?0	2 0..	...
R I & L	438 110	415 ?25	...
Pullman Palace Car	25 ?20	24 9?0	14 11
Total			$10? 9?5
Less Manitou & Pike's Peak increase			44?
Net shrinkage			$1? 9?1

On account of the low price of cattle the assessed valuation has been reduced 25 per cent all around This is the more just because cattle have hitherto been assessed at a proportionately higher price than other property Horses also share in this reduction. In the eastern part of the county there are lands which have hitherto been returned as agricultural and have been assessed accordingly This year they have been entered properly as grazing lands and the valuation reduced In the eastern end of Arapahoe county the valuation of such lands was put as low as $1 00 per acre, but in this county $1.25 is the minimum

Last year on account of the extraordinarily high levy caused by the excessive state tax and of the general depression of business the taxes were for the first time felt to be burdensome and so this year many property holders have decided that their property was not so valuable as formerly and they have decreased their schedules accordingly. Many of these claims have been allowed

The fact that with all these drawbacks the total is increased shows that the taxes this year are more generally and equally applied than ever before More people are paying taxes than formerly and there are less suffering under hardships. The following is an abstract of the completed assessment roll

Agricultural lands, acres 50 0 0	$ 450 000
Grazing lands acres 419 61?	961 ??
Improvements on lands	?96 170
Improvements on public lan ...	48 ?00
Town and city lots	3,?80 ?65
Improvements on town and city lots	2, 9?0 ?0
Railroads miles 25 ?	3 ?1? ?65
Telegraph and telephone lines miles	... 655
Capital invested in merchandise	?8? 460
Capital invested in manufactures	?3 ?10
Horses number ??	?2?? ?0
Mules number ??	1 ?0
Cattle, number 8 ?76	?00 ?0
Sheep number ?3 106	?3.1 ??
Swine number ?65	2 1?0
Other animals number	??
Musical instruments number 11	?2 ?5
Clocks and watches number 1,??	?2 ??
Jewelry gold and silver plate	1 ?65

Railroads miles 2??	? ?? ?10
Other property	?1? ?? ?0
Total	$11 ?? ?0

The assessed valuation of the property in the county has grown steadily ever since the county was organized There has never been a year of retrogression In the last two years progress has not been so rapid as in 1887-89, but still the growth of the figures evidences a steady prosperity in spite of a depression which has affected the entire state Here are the figures

1870	$ 324 0
1??	1 ...?0

Submerged Mountain and Forest

During a violent storm on the English channel in 1888 the sea washed a cut through an immense bank of sand near St Malo, laying bare a portion of an ancient submerged forest, much of which is fast passing into the condition of coal This forest at the beginning of the Christian era covered an area fully treble that of the coast but after a gradual sinking for hundreds of years it finally became submerged by the channel waters and in later years was slowly covered with drifting sand —

By the middle of the Tenth century the forest itself had disappeared but Mount St Michael rearing his head from the center of the great wooded tract could be seen for two centuries after the forest was out from view and was even accounted in geology to navigation as late as the year 1400 Instances of this preservation were laid bare by a long continued east wind, but forest and mountain alike both well nigh forgotten when again exposed by the fierce storm of 1888.

REVIEW OF TRADE

R G Dun & Co's Weekly Commercial Summary

THE CHOLERA AND TRADE

The Fear is Over and Business is Improving Again A Prosperous Winter Expected Bradstreet's Report Market Reports

New York Sept 9 R G Dun & Co's Weekly Review of Trade will say Last week's ... in stocks and grain has been ... followed by a more confident feeling about ... It is seen that the pestilence ... so far confined to incoming ships ... national regulations which all civilized ... are now pending Merchants of the disease ... happy reconsider ... scattered cases the ... measures taken by a thoroughly ... and aroused people would be unduly ... Meanwhile, ... thus far kept down in England Hence there is much less suppression regarding the possible effects of the disease this year before ... all wealth comes, and stocks have advanced about 5 cents per share on the whole though on other markets the alarm died out and weakness which still continues. Meanwhile the general condition of industry and trade throughout the country is not by any means markedly good but improving perceptibly from week to week, although the exports of merchandise are not yet large enough yet to prevent some exports of gold

Business in Boston is increasing the jobbing trade is active especially with the west and large with New England, cotton mills were never more fully employed the woolen goods trade is satisfactory and the clothing trade active in August, largely exceeding that of last year

The shoe trade is large with good prospects in all sections, and the manufacturers demand for wool is strong, sales being 3,000,000 pounds

At Philadelphia stocks of wool are large, preventing an advance, but trade in dry goods exceeds expectations, being unusually strong at the west and better than last year at the south and is especially good in silks, ribbons and dress goods. Iron trade has improved business in jewelry, hardware and tobacco is fair, and in liquors very good. At Baltimore boot and shoe jobbers find their demand exceeding deliveries from factories, and a good oyster season is expected.

Decided improvement is seen in the tone of the iron trade at Pittsburg, glass works are resuming and the hard ware trade is good Prospects are excellent at Cincinnati commission merchants unusually prosperous and trade in tobacco leaf strong Business at Cleveland has improved and is excellent, with larger demand for money At Detroit business in some lines is 10 to 20 per cent greater than last year and prospects are favorable.

General trade at Chicago is larger than a year ago, with favorable crop prospects. Receipts of lard, butter and cheese show some increase of last year, of wheat, a sixth of wool, a third and of flour and hides ... half, while in corn a decrease of a third appears, and a large decrease in rye and barley, with small decrease in other articles.

Milwaukee trade is fairly good tobacco having been little damaged by frosts, while corn is kept back by cool weather, and at Minneapolis crop prospects are fair, lumber is active and strong and general trade good

At St. Paul trade improves with brighter prospects and while average crops are expected higher prices are also judged probable. At Omaha trade is small in groceries and dry goods, and fair in other branches. St. Louis reports strong trade, and collections are rated to carry gain. At Kansas City trade is improving, receipts of cattle and grain being heavy and at Denver business is good At Little Rock business is satisfactory, though merchants buy conservatively At Louisville trade improves and at Nashville as well, crop prospects being better At New Orleans business has somewhat improved, but is not up to expectations Sugar is very strong, rice steady, and money stiff though in ample supply.

The iron industry shows more active, nearly all works are full of orders and the output is now heavy Nails have advanced 10 cents per keg, but some weakness appears in prices of structural and plate iron. A meeting of rail makers next week may give that branch a chance for larger business. Copper is uncertain, with sales at 11½ cents, business in tin has been checked by speculation dull and is weaker The exposed war between the Pennsylvania and the Reading adds to the dullness in coal Boots and shoes are in great demand, eastern shipments according to The Shoe and Leather Reporter being 88,?00 cases, against 78,317 last year. Cattle receipts at Chicago for the year are 11 per cent. larger than last year, and receipts of all live stock there in August were nearly 25 per cent. larger. All textile works are remarkably busy, and in dry goods a better demand is seen for medium grade woolens and a demand in excess of supply for plain wool goods, while prices of cotton are very firm, some advancing. Wheat has sold at 77½ cents, and excepting in two days in 1884, no lower price has ever been recorded here. Western receipts have been 5,700,000 bushels in four days, against 1,700,000 Atlantic exports. Oats are ½ cent higher, but corn is much lower with brightening crop prospects at the west, and coffee is ½ cent lower Cotton has advanced 1 16 cent during the week, although The Financial Chronicle makes the last crop 9 038 000 bales and the decrease in acreage this year only 12 per cent With restricted exports of products at present, foreign exchange is steady strong, but the treasury has put out of new notes $000, 000 more than it has added to its stocks of gold and silver and the money markets throughout the country are amply supplied, while collections in all quarters are very fair for the season It is expected that some more gold will go out this week, but no apprehension appears as yet on account of this unusually continued movement, because the supplies of currency available are remarkably large and the interior markets appear to demand less money from seaboard centers than is usually demanded at this season

The business failures during the last seven days number for the United States 146, Canada 33, total 179, as compared with 178 last week and 180 the week previous to the last, and 214 for the corresponding week last year

Trade and the Cholera.

New York Sept 9—Special telegrams to Bradstreet's from leading trade centers show that thus far there has been little if any check experienced by general trade due to the cholera scare or quarantine regulations, except at the metropolis. At the New York Produce exchange engagements to export breadstuffs have been seriously interfered with and most freights at the Maritime exchange are only nominal. Coarse exports are not naturally active at this period and ... the indications ... Imports ... linen rags are up ½ to 7 cents per pound and a higher rate is expected. Fine writing paper is expected to be advanced soon. No foreign rags, cotton or woolen waste are admitted now and chemical wood pulp has advanced $10 per ton. Bleaching powders, used by paper makers and as a disinfectant are up 2 17 to 6 cents per pound The price of fruits and vegetables as well as the importation of the same has been affected unfavorably. There has, of course, been a nearly universal demand for lysol and chemicals. Imports of Russian flaxseed have been ... The effect of delaying mercantile ... quarantine and disinfecting is beginning to be felt not a few ... goods falling ... with and the effect of the latter A number of wholesale houses report a growing caution on the part of out of town buyers Raw silk and stocks of manufactured silk and embroideries are ample for next months demand but a continued detention of goods will affect trade materially A few orders for German goods ... Hamburg have been countermanded It should be added that sales of hardware cutlery house furnishings wood and willow ware china lamps brass goods and glassware at New York are in excess of the total in ... period of 1891

Prices have been irregular the continuance of cholera in Europe will increase ... in the lower qualities, tending further influence ... though checked importations ... for staple articles ... Petroleum ... grades ... and cotton have all advanced fractionally while ... Indian corn, western steam lard and mess pork have suffered ... declines Oats wool pig iron and print cloths have not varied in price ... Exports ... wheat from United States ... both coasts are reported ... Bradstreets equal ... bushels this week about 10 per cent more than last week but 2 per cent less than the week before ... the like ... last, the total exports ... was 5 ... bushels in 1890 it was 1 ... bushels in 1889 ... bushels and in 1888 ... bushels

Reports from railroad companies throughout the United States to Bradstreet's show an aggregate of gross earnings in August amounting to $11 000 000 an increase over the total for August of last year of ... per cent. For eight months the gain this year as contrasted with last amounts to 6 ... per cent., the grand total gross earnings since Jan 1, having been in excess of $110 000 000 The only group showing a decrease in August gross earnings this year as compared with last is that of the Trunk lines due to the falling off reported by the Grand Trunk

General wholesale trade is only moderately active at Montreal country merchants are present in large numbers. Grocery and hardware dealers report the heaviest sales so far At Montreal staple lines report a moderate business, but prospects for the fall are regarded as quite encouraging At Quebec city recent business troubles unsettled trade somewhat

New York Stock Market.

New York, Sept 9—Money on call loaned easy at 4 per cent and closed offering at 5.

Stocks were extremely dull this morning. The only life displayed was by New England, St. Paul, Reading, Western Union, Louisville and Nashville, General Electric and the Sugar Trust. The first prices were slightly lower, but New England subsequently developed considerable strength, advancing 1 per cent. General Electric advanced 1½ St. Paul and Reading declined slightly. The rest of the list fluctuated within a narrow range and at noon values were very slightly changed from those of last evening

The market was a little more active after 1 o'clock, but fluctuations continued narrow as a rule. Missouri Pacific and New England were about the only strong stocks The former advanced 1½, while the latter closed 1¼ per cent. higher. The remainder of the list closed irregular and in most cases only slightly changed.

The total sales were 195,?00 shares Silver, 84¾.

The Financial Question.

There is no argument valid upon a promise of inherent ... ability. It need to be ... beyond question that there were no black swans because it is impossible to ... a black swan. But one ... and unconscious black swan ... the ... proves put all the ingenious thinkers to rout. Hume argued from his conception of a true induction that the major premise must include all possible cases This he thought conclusive against a great deal of popular belief. But what test have we of the possible? It is harder to believe that we have explained and classified the whole field of knowledge than that a ravenous fish with no higher and no lower thought in its meager brain than a plentiful ... should bear and ... and then ... used a man Besides we are not ... It is not ... possible.

Jonah was sailing in the Mediterranean right along its whole length—from Joppa in Palestine, to Tarshish, in Spain, and it is in this very sea that even at the present day a huge fish, the white shark, is found and not only this, but the bones of a much larger species now extinct. For the word used in the Bible is a general term for a large fish, and it includes in various writers sharks, tunnies, whales, dolphins and seals. This white shark attains such a size that it has been known to weigh 4½ tons One that was exhibited last century over Europe weighed nearly two tons, and very nearly re-enacted the part of Jonah's fish A British war vessel was sailing in the Mediterranean, when a man fell overboard. A huge shark instantly rose, and the unlucky seaman disappeared within its mouth. The captain fired a gun at it from the deck, and as the shot struck upon its back it cast the man out again and he was rescued by his companions. They forthwith harpooned the fish, dried him and presented him to his intended victim Quiver

One Way to Clean a Chimney.

There is no need of sending for a sweep when your chimney needs cleaning. The easiest way to clean a chimney is of course to hire somebody to do it for you, but in default of a professional the job may be easily and successfully done by a couple of amateurs. One should tie a cord to a brick and go on the roof with it and the other who ought to be a ... should be instructed to hold a large bag at the bottom of the chimney

Then the man on the roof should pull the brick up and down the chimney, and the man below will catch in the bag most of the soot that does not go in his face or on his clothes or out in the room There is no doubt as to the efficaciousness of the method but one who wishes to try the experiment should persuade some one else to hold the bag —St Louis Globe Democrat.

Ingenuity in Sign Painting

Sign painters nowadays need not show much knowledge of drawing figures, but very much skill and experience are necessary before one can space letters properly A poorly spaced sign is a spoiled one, and perhaps the advantage of good "spacers" would not ... to more than one in ten among sign painters.

The plain lettered sign is now most in vogue here, but it offers considerable scope for the exercise of ingenuity and taste ... of lettering proper backgrounds to the letters, appropriateness of appearance to the business advertised and what not besides. —New York Times

Prejudice Against Red Hair.

The prejudice against red hair is both ancient and widespread For centuries the popular notions throughout all Europe associated hair of this unlucky color with villainy, untrustworthiness and deceit. In Henry Behnel's "Collection of Proverbs," published in 1?00 occurs the following: "Good are the sheep; untrustworthy the red hair."

THE ASSESSMENT ROLL

El Paso County Shows the Total Increase in Valuation

County assessor M B Irvin and Deputy Mr Frank Cotton yesterday completed the assessment roll Although there has been a great reduction in the valuation of many lines of property the assessed valuation as a whole is increased This is not due to any sweeping raise in a few directions but by careful, close work among all classes a great deal of property that has not hitherto been returned such as clocks and watches, musical instruments silverware and other personal property

The state board of equalization let the railroads down very easily this year decreasing their valuation $108 961 The figures of this reduction are as follows

RAILROAD ASSESSMENTS

	1891	1892	Shrinkage
D & R G	$6e* 93	$5897 7 0	$ 8 9n3
Santa Fe	4 ...60	466 80	54
Union Pacific	458 8 0	4.1 8G	38 81
Midland	4 ...80	3?? ...	11 10
Manitou & P k	26 0?0	2 0..	...
R I & L	438 110	415 ?25	...
Pullman Palace Car	25 ?20	24 9?0	14 11
Total			$10? 9?5
Less Manitou & Pike's Peak increase			44?
Net shrinkage			$1? 9?1

On account of the low price of cattle the assessed valuation has been reduced 25 per cent all around This is the more just because cattle have hitherto been assessed at a proportionately higher price than other property Horses also share in this reduction. In the eastern part of the county there are lands which have hitherto been returned as agricultural and have been assessed accordingly This year they have been entered properly as grazing lands and the valuation reduced In the eastern end of Arapahoe county the valuation of such lands was put as low as $1 00 per acre, but in this county $1.25 is the minimum

Last year on account of the extraordinarily high levy caused by the excessive state tax and of the general depression of business the taxes were for the first time felt to be burdensome and so this year many property holders have decided that their property was not so valuable as formerly and they have decreased their schedules accordingly. Many of these claims have been allowed

The fact that with all these drawbacks the total is increased shows that the taxes this year are more generally and equally applied than ever before More people are paying taxes than formerly and there are less suffering under hardships. The following is an abstract of the completed assessment roll

Agricultural lands, acres 50 0 0	$ 450 000
Grazing lands acres 419 61?	961 ??
Improvements on lands	?96 170
Improvements on public lan ...	48 ?00
Town and city lots	3,?80 ?65

Other property	?1? ?? ?0
Total	$11 ?? ?0

The assessed valuation of the property in the county has grown steadily ever since the county was organized There has never been a year of retrogression In the last two years progress has not been so rapid as in 1887-89, but still the growth of the figures evidences a steady prosperity in spite of a depression which has affected the entire state Here are the figures

1870	$ 324 0
1??	1 ...?0

Submerged Mountain and Forest

During a violent storm on the English channel in 1888 the sea washed a cut through an immense bank of sand near St Malo, laying bare a portion of an ancient submerged forest, much of which is fast passing into the condition of coal This forest at the beginning of the Christian era covered an area fully treble that of the coast but after a gradual sinking for hundreds of years it finally became submerged by the channel waters and in later years was slowly covered with drifting sand —

By the middle of the Tenth century the forest itself had disappeared but Mount St Michael rearing his head from the center of the great wooded tract could be seen for two centuries after the forest was out from view and was even accounted in geology to navigation as late as the year 1400 Instances of this preservation were laid bare by a long continued east wind, but forest and mountain alike both well nigh forgotten when again exposed by the fierce storm of 1888.

REVIEW OF TRADE

R G Dun & Co's Weekly Commercial Summary

THE CHOLERA AND TRADE

The Fear is Over and Business is Improving Again A Prosperous Winter Expected Bradstreet's Report Market Reports

New York Sept 9 R G Dun & Co's Weekly Review of Trade will say Last week's ... in stocks and grain has been ... followed by a more confident feeling about ... It is seen that the pestilence ... so far confined to incoming ships ... national regulations which all civilized ... are now pending Merchants of the disease ... happy reconsider ... scattered cases the ... measures taken by a thoroughly ... and aroused people would be unduly ... Meanwhile, ... thus far kept down in England Hence there is much less suppression regarding the possible effects of the disease this year before ... all wealth comes, and stocks have advanced about 5 cents per share on the whole though on other markets the alarm died out and weakness which still continues. Meanwhile the general condition of industry and trade throughout the country is not by any means markedly good but improving perceptibly from week to week, although the exports of merchandise are not yet large enough yet to prevent some exports of gold

Business in Boston is increasing the jobbing trade is active especially with the west and large with New England, cotton mills were never more fully employed the woolen goods trade is satisfactory and the clothing trade active in August, largely exceeding that of last year

The shoe trade is large with good prospects in all sections, and the manufacturers demand for wool is strong, sales being 3,000,000 pounds

At Philadelphia stocks of wool are large, preventing an advance, but trade in dry goods exceeds expectations, being unusually strong at the west and better than last year at the south and is especially good in silks, ribbons and dress goods. Iron trade has improved business in jewelry, hardware and tobacco is fair, and in liquors very good. At Baltimore boot and shoe jobbers find their demand exceeding deliveries from factories, and a good oyster season is expected.

Decided improvement is seen in the tone of the iron trade at Pittsburg, glass works are resuming and the hard ware trade is good Prospects are excellent at Cincinnati commission merchants unusually prosperous and trade in tobacco leaf strong Business at Cleveland has improved and is excellent, with larger demand for money At Detroit business in some lines is 10 to 20 per cent greater than last year and prospects are favorable.

General trade at Chicago is larger than a year ago, with favorable crop prospects. Receipts of lard, butter and cheese show some increase of last year, of wheat, a sixth of wool, a third and of flour and hides ... half, while in corn a decrease of a third appears, and a large decrease in rye and barley, with small decrease in other articles.

Milwaukee trade is fairly good tobacco having been little damaged by frosts, while corn is kept back by cool weather, and at Minneapolis crop prospects are fair, lumber is active and strong and general trade good

At St. Paul trade improves with brighter prospects and while average crops are expected higher prices are also judged probable. At Omaha trade is small in groceries and dry goods, and fair in other branches. St. Louis reports strong trade, and collections are rated to carry gain. At Kansas City trade is improving, receipts of cattle and grain being heavy and at Denver business is good At Little Rock business is satisfactory, though merchants buy conservatively At Louisville trade improves and at Nashville as well, crop prospects being better At New Orleans business has somewhat improved, but is not up to expectations Sugar is very strong, rice steady, and money stiff though in ample supply.

The iron industry shows more active, nearly all works are full of orders and the output is now heavy Nails have advanced 10 cents per keg, but some weakness appears in prices of structural and plate iron. A meeting of rail makers next week may give that branch a chance for larger business. Copper is uncertain, with sales at 11½ cents, business in tin has been checked by speculation dull and is weaker The exposed war between the Pennsylvania and the Reading adds to the dullness in coal Boots and shoes are in great demand, eastern shipments according to The Shoe and Leather Reporter being 88,?00 cases, against 78,317 last year. Cattle receipts at Chicago for the year are 11 per cent. larger than last year, and receipts of all live stock there in August were nearly 25 per cent. larger. All textile works are remarkably busy, and in dry goods a better demand is seen for medium grade woolens and a demand in excess of supply for plain wool goods, while prices of cotton are very firm, some advancing. Wheat has sold at 77½ cents, and excepting in two days in 1884, no lower price has ever been recorded here. Western receipts have been 5,700,000 bushels in four days, against 1,700,000 Atlantic exports. Oats are ½ cent higher, but corn is much lower with brightening crop prospects at the west, and coffee is ½ cent lower Cotton has advanced 1 16 cent during the week, although The Financial Chronicle makes the last crop 9 038 000 bales and the decrease in acreage this year only 12 per cent With restricted exports of products at present, foreign exchange is steady strong, but the treasury has put out of new notes $000, 000 more than it has added to its stocks of gold and silver and the money markets throughout the country are amply supplied, while collections in all quarters are very fair for the season It is expected that some more gold will go out this week, but no apprehension appears as yet on account of this unusually continued movement, because the supplies of currency available are remarkably large and the interior markets appear to demand less money from seaboard centers than is usually demanded at this season

The business failures during the last seven days number for the United States 146, Canada 33, total 179, as compared with 178 last week and 180 the week previous to the last, and 214 for the corresponding week last year

Trade and the Cholera.

New York Sept 9—Special telegrams to Bradstreet's from leading trade centers show that thus far there has been little if any check experienced by general trade due to the cholera scare or quarantine regulations, except at the metropolis. At the New York Produce exchange engagements to export breadstuffs have been seriously interfered with and most freights at the Maritime exchange are only nominal. Coarse exports are not naturally active at this period and ... the indications ... Imports ... linen rags are up ½ to 7 cents per pound and a higher rate is expected. Fine writing paper is expected to be advanced soon. No foreign rags, cotton or woolen waste are admitted now and chemical wood pulp has advanced $10 per ton. Bleaching powders, used by paper makers and as a disinfectant are up 2 17 to 6 cents per pound The price of fruits and vegetables as well as the importation of the same has been affected unfavorably. There has, of course, been a nearly universal demand for lysol and chemicals. Imports of Russian flaxseed have been ... The effect of delaying mercantile ... quarantine and disinfecting is beginning to be felt not a few ... goods falling ... with and the effect of the latter A number of wholesale houses report a growing caution on the part of out of town buyers Raw silk and stocks of manufactured silk and embroideries are ample for next months demand but a continued detention of goods will affect trade materially A few orders for German goods ... Hamburg have been countermanded It should be added that sales of hardware cutlery house furnishings wood and willow ware china lamps brass goods and glassware at New York are in excess of the total in ... period of 1891

Prices have been irregular the continuance of cholera in Europe will increase ... in the lower qualities, tending further influence ... though checked importations ... for staple articles ... Petroleum ... grades ... and cotton have all advanced fractionally while ... Indian corn, western steam lard and mess pork have suffered ... declines Oats wool pig iron and print cloths have not varied in price ... Exports ... wheat from United States ... both coasts are reported ... Bradstreets equal ... bushels this week about 10 per cent more than last week but 2 per cent less than the week before ... the like ... last, the total exports ... was 5 ... bushels in 1890 it was 1 ... bushels in 1889 ... bushels and in 1888 ... bushels

Reports from railroad companies throughout the United States to Bradstreet's show an aggregate of gross earnings in August amounting to $11 000 000 an increase over the total for August of last year of ... per cent. For eight months the gain this year as contrasted with last amounts to 6 ... per cent., the grand total gross earnings since Jan 1, having been in excess of $110 000 000 The only group showing a decrease in August gross earnings this year as compared with last is that of the Trunk lines due to the falling off reported by the Grand Trunk

General wholesale trade is only moderately active at Montreal country merchants are present in large numbers. Grocery and hardware dealers report the heaviest sales so far At Montreal staple lines report a moderate business, but prospects for the fall are regarded as quite encouraging At Quebec city recent business troubles unsettled trade somewhat

New York Stock Market.

New York, Sept 9—Money on call loaned easy at 4 per cent and closed offering at 5.

Stocks were extremely dull this morning. The only life displayed was by New England, St. Paul, Reading, Western Union, Louisville and Nashville, General Electric and the Sugar Trust. The first prices were slightly lower, but New England subsequently developed considerable strength, advancing 1 per cent. General Electric advanced 1½ St. Paul and Reading declined slightly. The rest of the list fluctuated within a narrow range and at noon values were very slightly changed from those of last evening

The market was a little more active after 1 o'clock, but fluctuations continued narrow as a rule. Missouri Pacific and New England were about the only strong stocks The former advanced 1½, while the latter closed 1¼ per cent. higher. The remainder of the list closed irregular and in most cases only slightly changed.

The total sales were 195,?00 shares Silver, 84¾.

The Financial Question.

There is no argument valid upon a promise of inherent ... ability. It need to be ... beyond question that there were no black swans because it is impossible to ... a black swan. But one ... and unconscious black swan ... the ... proves put all the ingenious thinkers to rout. Hume argued from his conception of a true induction that the major premise must include all possible cases This he thought conclusive against a great deal of popular belief. But what test have we of the possible? It is harder to believe that we have explained and classified the whole field of knowledge than that a ravenous fish with no higher and no lower thought in its meager brain than a plentiful ... should bear and ... and then ... used a man Besides we are not ... It is not ... possible.

Jonah was sailing in the Mediterranean right along its whole length—from Joppa in Palestine, to Tarshish, in Spain, and it is in this very sea that even at the present day a huge fish, the white shark, is found and not only this, but the bones of a much larger species now extinct. For the word used in the Bible is a general term for a large fish, and it includes in various writers sharks, tunnies, whales, dolphins and seals. This white shark attains such a size that it has been known to weigh 4½ tons One that was exhibited last century over Europe weighed nearly two tons, and very nearly re-enacted the part of Jonah's fish A British war vessel was sailing in the Mediterranean, when a man fell overboard. A huge shark instantly rose, and the unlucky seaman disappeared within its mouth. The captain fired a gun at it from the deck, and as the shot struck upon its back it cast the man out again and he was rescued by his companions. They forthwith harpooned the fish, dried him and presented him to his intended victim Quiver

One Way to Clean a Chimney.

There is no need of sending for a sweep when your chimney needs cleaning. The easiest way to clean a chimney is of course to hire somebody to do it for you, but in default of a professional the job may be easily and successfully done by a couple of amateurs. One should tie a cord to a brick and go on the roof with it and the other who ought to be a ... should be instructed to hold a large bag at the bottom of the chimney

Then the man on the roof should pull the brick up and down the chimney, and the man below will catch in the bag most of the soot that does not go in his face or on his clothes or out in the room There is no doubt as to the efficaciousness of the method but one who wishes to try the experiment should persuade some one else to hold the bag —St Louis Globe Democrat.

Ingenuity in Sign Painting

Sign painters nowadays need not show much knowledge of drawing figures, but very much skill and experience are necessary before one can space letters properly A poorly spaced sign is a spoiled one, and perhaps the advantage of good "spacers" would not ... to more than one in ten among sign painters.

The plain lettered sign is now most in vogue here, but it offers considerable scope for the exercise of ingenuity and taste ... of lettering proper backgrounds to the letters, appropriateness of appearance to the business advertised and what not besides. —New York Times

Prejudice Against Red Hair.

The prejudice against red hair is both ancient and widespread For centuries the popular notions throughout all Europe associated hair of this unlucky color with villainy, untrustworthiness and deceit. In Henry Behnel's "Collection of Proverbs," published in 1?00 occurs the following: "Good are the sheep; untrustworthy the red hair."

We print to-day an abstract of what County Treasurer Irvine and his deputy have spent nearly a year in compiling—the assessment roll for El Paso county. The taxpayers will be gratified at the way in which this difficult and delicate work has been performed. The work has been a labor of equalization. Where the taxes were a heavy burden they have been reduced, while many property holders who have hitherto escaped paying their share of the support of the county and state governments are now justly taxed. The state board of equalization has seen fit to reduce the assessments of the railroads, not only in this county, but all over the state. While in some of the counties where the railroads pay about all of the taxes and where the land values are less than they were when the counties were organized this will work some hardship, El Paso's growth and prosperity are sufficient to keep up the valuation in spite of these reductions. The assessment roll tells the story of a community's growth better than anything else, and judged by this standard El Paso probably leads the state. There is a close connection between this fact and the fact that this is the banner Republican county of the state. Republican policies, prosperity and progress are pretty closely associated.

Every resident of the county will be glad that the glass works is to be built at once. The enterprise has been a success, and of great benefit, not only on account of the wages that have been distributed by it, but also on account of the example that it has been. One successful enterprise of this kind counts more than a hundred circulars and hours of talk. The glass works has been a success because it has utilized a local material and met a local demand. It will be rebuilt for the same reasons. We believe that there are other opportunities of a similar kind here and the new glass works will help to call attention to the industrial resources of the county.

To-day is the appointed time for the swallowing by the Peoples party of the El Paso Democrats. Mixed with the apprehension which the prospect of such an operation naturally causes, there is some curiosity on the part of our worthy political opponents to know how it will feel after it is done. The process of being absorbed is a new one to most of our local politicians, and some of them even are inclined to object a little to a course which repudiates the record of the Democracy as well as its principles in an attempt at vote getting whose success is very doubtful.

There were few followers of the theories of the Populists at the big gathering of farmers at Rocky Ford on Thursday. The soil of the Arkansas valley is too productive for those ideas to take much hold. The men who wear "Alfalfa Palaces" where they exhibit cereals and vegetables that make eastern men marvel, the men who give away 5,000 melons just to show how easy it is these are not of the class who want the government to be a pawnbroker for their benefit or to issue billions of paper dollars just to lower the monetary standard.

When the Denver News abandons itself to a dream of success of the People's party in El Paso county next November it is indulging in the same kind of rainbow chasing in which the Democratic national committee ridiculous. Between chaos of Democratic success in Illinois and El Paso there is not much to choose, and claims to either are evidences of Democratic demoralization and premonitions of Democratic defeat.

The competition of ambrosia, the fabled food of the gods, has been a scientific problem. The Pueblo correspondent of the Denver Republican announces, however, that the candidates in that city were "thick as the leaves in Ambrosia." According to this the food of the Greek deities must have been either salad or boiled greens.

The Republicans of Colorado have nominated a ticket that is unusually strong all through and that will command the full party support. This signifies that the ticket will be elected.

Perhaps the Democrats would like to nominate as good candidates as the Republicans but they cannot.

Republicans in Colorado can vote for men and principles both this year.

Free ground rats will never be any help to free silver.

RELIGIOUS WORLD

Notes and Comments by the Rev Jas B Cree D D

Liberty for Labor cannot be made by Mansfield the actor who says in the September North American Review "The stage should not be for temptation from the deliverance of which we pray in the morning and which we court in the evening. It should not be for the idiotic laugh and the imbecile applause it is not for the drunken and wanton. It is not to be shrieked at to day and to be ashamed of to morrow. It is not for gymnastics. It is for the gracious, the graceful the thoughtful the gentle. It is to send us home with better thoughts and better feelings with a lesson learned by example and with food for pleasant reflection. It is for wholesome mirth or for such stirring tragedy as will fire us to noble deeds or for such potent example as will sicken us of evil doing. That is the stage as I understand it and as I would strive for it. The bane of the American drama is the cheap theater and if my protest can be heard and be long heard be deemed a rightful protest all men will stay away from it henceforth forever."

Says a correspondent of The Congregationalist "Already testimonies echo back to Chicago with telegraphic literalness reciting the object lesson given by young Christianity on its triumphal progress to the Endeavor convention at New York. A new evidence of disciplehood has been added. 'By this shall all men know that ye are My disciples,' if you behave yourselves away from home. The superintendent of the Wagner Palace Car company wrote a self prompted letter to Mr Spooner, president of the Chicago union of C. E., stating that when the crowded trains of delegates reached New York and the car cleaners came aboard, they remarked that 'travel must have been very light on this trip.' When told that the trains were full, they supposed the porters must have cleaned them 'in transitu' for some reason. They were simply astounded to find that no car-cleaning was needed besides sweeping. The smoking rooms were as tidy as any other part of the cars. The superintendent said that their coaches usually suffer damage on each trip but bore no marks of hard usage by the Endeavor people. He would rather carry ten excursion trains of this class than one of the common sort. Surely 'their report is gone out into all the world.' It was said in very old English of a true Christian.

But Christ loved to his Apostles to live
Hetaught but first he fetwed it himselve.

"To the same purport is that which the proprietor of the Park hotel said in praise of the Illinois delegation. We engaged to entertain 500 delegates but you brought nearly 700. We had to hire fifty additional waiters and twenty five extra chambermaids, all untried help. But your overflow crowd has caused us less trouble and made less complaint than our ordinary run of 300 guests.' No doubt this unsolicited compliment applies to all the societies. It proves that modern Americans are not lost to the good old fashion of manners."

The New York Tribune pays its respects to Mr Herbert Spencer in the following trenchant way

"In the August number of the Popular Science Monthly appears an article on Veracity taken from Herbert Spencer's Principles of Ethics, in which the great thinker adduces facts to show that complete truthfulness is one of the rarest of virtues. That this is the case not only among uncivilized races which avowedly cultivate lying as a most useful and necessary virtue but in highly civilized races as well will not be denied by anyone of intelligence. And strangely enough Mr Spencer's article itself furnishes a striking example of the way in which even an honest and acute man may unconsciously bear false witness. After stating that there was but little reprobation of lying among the ancient Hebrews he remarks. 'Nor do we find the standard much changed in the days of Christ and after instance the case of Paul, who apparently rather prided himself on his craft and guile. Else here defends his acts by contending that the truth of God hath more abounded through my lie unto His glory.'

"Now there is an amazing blunder for a man like Herbert Spencer to make. For it is an utter distortion of the true meaning of the passage. In the third chapter of the epistle to the Romans from which it is taken Paul threw his argument into the form of a dramatic dialogue between himself and a Jewish objector in order to make it more vivid. And those who are wrenched from their context by Mr Spencer are simply words of the Jewish objector that Paul supposed his opponent. But Paul's opponent asks if the truth of God through my lie abounded unto His glory why am I also still judged as a sinner. And Paul proceeds to answer him by stating that all men are sinners and that they are not justified by their works either good or evil but by faith. Thus it will be seen that the charge which the philosopher tries to fasten on the apostle is utterly baseless. Mr Spencer indeed does not appear to have taken any pains to understand the words of the man whose character he so glibly accuses and he will not be surprised to find that his own reputation for accuracy is not enhanced by the use he has made of the passage."

Mr Walter Besant, whose story "All Sorts and Conditions of Men" led to the creation of the "People's Palace in London, says that the old time hatred of the church, such as used to appear in the workingman's papers fifty years ago, is dying out rapidly in our great cities. Witnessing what is being done for them through so many different agencies they must be says, be stocks and stones if they were not moved by them and they are not stocks and stones they are actually though slowly moved by them.

A writer in The Catholic Citizen, speaking of the success of the first Roman Catholic Summer school says that five sixths of those in attendance are Catholics who obtain our godless schools. The school in earnest from Boston and the other teachers from Brooklyn and Scranton were there. They are keen witted and earnest, and their conversation has a readiness a composedness and a nicety of accent that informs us that we are Americans in the second and third generation. Of course this aspect of the Catholic reading circle movement in the Catholic Summer school is highly suggestive. The public schools cannot be called godless without a large mental reservation when their garrison and their graduates are almost alone carrying on the only intellectual movement among the Catholic laity. We are bound to take notice of the facts as they exist and to honestly recognize the inferences. This is significant testimony.

In The Fortnightly Review Mr Arnold White gives the results of a strict and unbiassed investigation into the financial status of the Salvation Army. He arrives at the following general conclusions 1 That General Booth and his family are honest to the core 2 That they take a bare living in return for their labors 3 That they one and all, for the good of others are working themselves to death 4 That General Booth himself is of independent means and has given thousands to the Army and that two of his sons have abandoned good positions to work in the Army 5. That the funds laid out on the Hadleigh colony have been well and wisely spent 6 That the capital laid out on the colony is intact, if it has not increased in value 7 That money is urgently needed to carry out the original programme, and if supplied will be well spent.

Mr Edward W Bok, the clever editor of that extraordinarily successful paper, The Woman's Home Journal, has the following to say concerning his own practice of total abstinence

"As opportunities come to me to go around in homes and at public places, I find that I do not occupy a solitary position. The tendency to abstain from liquors is growing more and more among young men of to day. The brightest young men I know young men who are filling positions of power and promise, never touch a drop of beer wines or intoxicants of any sort, and the young man who to day makes up his mind that he will be on the safe side and adhere to strict abstinence will find that he is not alone. He has now the very best element in business and social life in the largest cities of our land with him."

The recent United States census shows that the total number of church members is 20 000,000, or about one in three of the whole population.

The Speed of Fish

The Industrial World

Now that every effort is being made to increase the speed of ocean steamers, it is interesting to know the speed with which different fish can pass through the water. For long distance swimming the shark may be said to hold the record, as he can outstrip the swiftest ship apparently without effort, swimming and playing around them and over on the look out for prey. Any human being falling overboard in shark frequented waters has very little chance to escape, so rapid is the action of the shark, the monster of the deep. The dolphin, another fast swimming fish is credited with a speed of considerably over twenty miles an hour. For short distances the salmon can outstrip every other fish, accomplishing its twenty five miles an hour with ease. The Spanish mackerel is one of the fastest of food fishes and cuts the water like a yacht. Predators fishes are generally the fastest swimmers.

The Last Drop
Is as good as the first. No dregs. All pure and wholesome. The most popular drink of the day.
Hires Root Beer.

SANTA FE ROUTE TO DENVER

If you are going to Denver, and want first-class well-aired and furnished Pullman Sleepers, and elegant vestibule train, by way of the Santa Fe route, remember that our train leaves Pueblo at 5:55 p. m. daily for the best there is and in the shortest time with most comfort and ease. Returning, leaves Denver at 10:45 a. m. daily, arriving at Pueblo at 4:55 and 5:05 p. m.

NO PAINS WILL BE SPARED

By the ticket agent of the Santa Fe route to make your trip and stay in Colorado as pleasant as possible. Accommodations will be secured at your destination. Everything will be done for your comfort and convenience. Ticket office No. 10 N. Tejon, opposite Antlers house Block.

TERRITORIAL FAIR

At Albuquerque, N. M.

For the Territorial Fair at Albuquerque, N. M., to be held Sept. 12th to 17th, inclusive, the Santa Fe route will make the extremely low rate of one fare for the round trip, good for passage from all points in Colorado. Tickets on sale at C. C. HOYT'S ticket office, No. 10 N. Tejon st.

DEMOCRATIC CONVENTION TO FIELD

Santa Fe route will make a liberal and reasonable rate of $5.75 from Denver to Field, good to return on Field's license.

ATTENTION, G. A. R.

The Santa Fe route with its usual promptness has not only arranged for reduced rates of fare for the round trip to the National Encampment at Washington in September, but has also secured free sleeping accommodations for all old soldiers and G. A. R. if application is made in advance.

Arrangements have also been made to serve meals in temporary dining rooms in the vicinity of the barracks at very moderate prices.

Special trains containing Pullman and Tourist Sleepers, Chair Cars and coaches will be arranged from Kansas, Colorado, New Mexico and Oklahoma, on which we will reserve accommodations if advised of your wishes.

Stop-overs will be allowed east of our lines.

As the Santa Fe is the only line in the West offering these inducements it would be advisable to make early application to the undersigned or to Geo. T. Nicholson, G. P. & T. A., Topeka, for such accommodations as you may desire.

Further particulars, such as dates of sale, limits, etc., can be obtained by applying to

C. C. HOYT,
Agent A. T. & S. F.

DO YOU WANT GOLD?

Cripple Creek is not only a health, but a Wealth resort.
Location near Pike's Peak.
Gold! Bright, yellow gold is found at times rests in the rock formation.
Reliable experts claim this is to-day
The richest camp in Colorado.
Assays average over $800 per ton, and have been as high as Five Thousand Dollars.
100 people a day are now rushing into this District.
A chance of a life-time is worth looking after.
The only way to reach Cripple Creek is via Florissant and the Colorado Midland Railway. Inquire of local agents for particulars, or
CHAS. S. LEE, General Passenger Agent,
Denver, Colorado.

ROCK ISLAND.

LOWEST RATES YET!

The Great Rock Island Route will on Sept. 11th inaugurate the lowest excursion rates to Eastern points that have been offered to the citizens of Colorado Springs. These rates will apply to all points east of Chicago or St. Louis. No day line to Washington, D. C. This is the best opportunity for a long time past to make a trip east.

For full particulars of this excursion call on or address W. W. WOOD, Ticket and Passenger Agent, 12 Pike's Peak ave., telephone No. 97.

TAKE YOUR CHOICE.

Leave Colorado Springs 3:40 a. m. and arrive at Chicago next afternoon, with only one night out, or leave 7:30 p. m. arriving at Chicago second morning at 7:45.

Both trains are solid vestibuled limited trains Colorado Springs to Chicago without change and make direct connection at Chicago, Council Bluffs, St. Joseph and Kansas City for all points east.

We serve all meals en route on our own magnificent dining cars. If you wish to make a pleasant trip free from annoyances and inconveniences start via the Great Rock Island.

W. W. WOOD,
Ticket and Passenger Agent, 12 Pike's Peak Avenue. Telephone No. 97.

CALL FOR A DEMOCRATIC COUNTY CONVENTION.

HEADQUARTERS OF THE DEMOCRATIC COUNTY CENTRAL COMMITTEE OF EL PASO COUNTY.
COLORADO SPRINGS, Colo., Sept. 2, 1892.

In pursuance of the action of the Democratic County Central Committee a convention of the Democratic party of El Paso county is hereby called to meet in court house hall in Colorado Springs on Saturday, Sept. 10th, 1892, at 2 o'clock p. m. for the purpose of nominating candidates for the several offices to be filled by the people of said county at the general election to be held on Tuesday the 8th day of November 1892, as follows:

One County commissioner.
One County judge and
Three representatives.

Also for the purpose of selecting twenty delegates to represent said county at the Democratic state convention to be held in Pueblo on September 12th, 1892, to nominate candidates for offices in accordance with the call for said state convention; and to select twenty delegates to represent said county at the second congressional district convention to be held at Pueblo on September 12th, 1892.

And to transact such other business as may properly come before said convention.

The several precincts are entitled to representation as follows:

No. 1—Eastonville	1

The delegates to the Republican state convention returned yesterday from Pueblo They were in the best of spirits and enthusiastic over the ticket named There was never such harmony in a Republican convention in this state before and such evident determination on the part of the delegates to get out and roll up a majority for the candidates In this city the announcement of the nominations was received with the most cordial approval both by Democrats and Republicans

Mr H C Coilbran general manager of the Midland returned from Chicago yesterday He states that the Midland will not halt at the town of Midland as at first contemplated but will build on into Fremont The Midland Terminal the narrow gauge contemplated may also build to Midland even if the broad gauge builds clear through It will build around to the various mines and towns, however even if it does not build to Midland. Mr Coilbran thinks the trains can be running into Midland in ninety days

AFTER THE FIRE.

The Olive Works Will Be Rebuilt in Twenty Days

The calamity at the Colorado City glass works is not as serious as was at first thought, although bad enough The furnaces and boilers, the most expensive part of the plant, it is believed, are uninjured but the full extent of the damage cannot be learned until the fires are extinguished. Mr J A Hayes disposed of his interest in the company some time ago so that Mr L R Ehrich Mr J B Wheeler and Mr Adolph Busch of St Louis are now the principal owners Mr Ehrich and Mr. Wheeler both stated yesterday that the plant will be rebuilt immediately and hope that work can be resumed within twenty days. The employes were all given work yesterday cleaning up the debris so that they will not be out of employment all the time during the wait

The loss is put high as there was not much insurance the whole amounting to about $1,000 The loss in manufactured glass is not large as that can all be remelted The Manitou Bottling [illegible] will be able to supply customers temporarily

The appearance of the company will rebuilt was greeted with every evidence of satisfaction when announced yesterday and the energy of the gentlemen interested commended on every hand The county commissioners are discussing the matter of remitting the assessment of the company for the year

B C of C in 93

An effort will be made to secure the session of the National Convention of Associated Keeley Bi Chloride of Gold clubs to be held in September 1893 for this city The next convention commences at Dwight next Tuesday and the Colorado Springs club will send a delegation of fifteen led by Major Harry Insley He says he never started in to get anything yet and failed and he is sure of getting this convention Mr Guy Humphrey will go as a representative of the chamber of commerce An extra leaf will be put in the small free distribution Colorado Springs book, tell some reasons why the institute in this city is accomplishing much better results than those in other climates Five thousand of these will be prepared and distributed as well as other literature advertising the city

The delegates will wear a very handsome hand painted badge, bearing a picture of the columbine, the state flower, and in gold "Colorado Springs, A. K. Bi Chloride of Gold Club" The badge is of satin with a fringe at the bottom

The delegation will start on a special Rock Island car Monday morning At Leavenworth, Kas, they will be tendered a banquet by the Leavenworth club and will also be the guests of the Soldiers Home club, which numbers over 300 members. They will be accompanied on their journey by the delegates from these clubs. At Kansas City the procession will be swelled by the delegates from the Kansas City Excelsior Springs, Mo., and Liberty, Mo., clubs. At the convention the claims of Colorado Springs will be backed by all those delegates by the president of the Chicago club and by many others.

The convention will be composed of from 3000 to 5000 graduates from Keeley institutes, delegates from clubs in every state in the Union, Canada England, Australia and parts of South America. It is expected that the convention in 1893 will be even larger But even if the convention does not decide to hold its next session here, the town will have received some very valuable advertising

Gold Club Entertainment

The Bi Chloride of Gold club entertainments have become so popular that it is no longer possible to accommodate the audiences at the club house. Tonight the entertainment will be given in Weber hall The programme will include addresses by prominent graduates, Mr Joseph Newman, one of the best recitationists of Denver will take part in the entertainment. The following is the programme

No Use for It

It was in a little country school in the mountains of Pennsylvania One of the scholars was a bright little Irish girl who only did pretty well the study of geography After much labor her teacher had succeeded in giving her a fair start, when one day asked the child if she knew the name of the capital of the United States

"No, ma'am," was the reply.

"Well, I will tell you, and then you must try to remember it not doubting the pupil understood the meaning of the word 'capital" as used "It is Washington"

With smiling eyes and dimpling cheeks the girl exclaimed

"Why I thought he was dead long ago!"—Detroit Free Press

Unless You Carry a Gun

The answers in the correspondents column of a German journal contain the following

P S—We really think you had better not visit us in order to receive an explanation of the reason why we have rejected your manuscript Our staff revise we regret information, how ever for as well they keep hoist out the button—Boston Globe

A Sure Cure

My dear said Mr Bunker to his wife what has become of that box of cigars I gave me on my birthday

It is my stars

Well get it please Jimmy wants to smoke and I think we can give him all he want in about three seconds—Harpers Bazar

The Wrong Place

The Newly Engaged Man—I don't think it's very nice for you to wait until you get into the street car before putting on your gloves

The Newly Engaged girl—You should try me in a carriage—New York Herald

A Stroke of Executive Genius

Miss Manche—And so I refused him right on the ground that I am too young to marry

Chorus of Miss Manche's Friends Oh you lucky girl Who else would have thought of that excuse from you? Chicago Tribune
